1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

On page 1 of the specification, the language --now U.S. Patent 6,170,956,-- has been inserted after "May 13, 1999," and the language --now abandoned,-- has been inserted after "October 14, 1998,".

3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest a mirror comprising a housing, a mirror subassembly including a reflector layer with a portion defining an opening; a panel covering the opening, said panel configured to form a visual display of indicia, the indicia having a characteristic color; and at least one light source positioned in the housing to emit light through the indicia on the panel and through the opening of the mirror subassembly to selectively illuminate the indicia, the at least one light source emitting a light matched in color to the characteristic color of the indicia, as recited in claim 1, lines 2 to 9.

4. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed inventions is hereby withdrawn and claims 2, 3, 7 and 20, directed to the inventions of group I, group II and group V are no longer withdrawn from consideration since all of the claims to these inventions depend from or otherwise include each of the limitations of an allowed generic or linking claim. In view of the above noted withdrawal of the restriction requirement as to the linked inventions, applicant(s) are advised that if any claim(s) depending

from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971).
